Most kingdom names stay inside the kingdom

Share of each name's businesses, clubs and societies inside its kingdom's approximate extent (dot, with 95% interval), against the share of the UK's residents who live there (grey bar). Only names with 20 or more such places are tested.

Diamonds: fewer than 20 places, described only. East Anglia is also a modern region.

Data: OpenStreetMap contributors (ODbL); ONS, NRS and NISRA census populations (OGL v3.0)
